

MAC-I

FINECORSA VERTICALE

MBP

- Disponibili per molteplici applicazioni.
- Vasta gamma di attuatori.
- Grado di protezione IP65.
- Apertura positiva dei contatti in conformità alla norma EN 60947-5-1.
- Corpo in tecnopolimero rinforzato a doppio isolamento.
- Omologato C.E.
- Conforme alle norme CENELEC EN50041.

COME ORDINARE

MB	P1	H11	Z11
Tipo di cassetta	Azionamenti		Tipo di contatti
P1: rettangolare in tecnopolimero 1 uscita PG 13.5	H11 - H12 - H13 - H14 - H19 H31 - H32 - H33 - H35 - H36 H37 - H41 - H42 - H43 - H44 H51 - H52 - H53 - H54 - H61 H62 - H71 - H72 - H91 - H92 H93		Z11: "NO+NC" a scatto rapido X11: "NO+NC" ad azione lenta

CARATTERISTICHE

Configurazione dei contatti		1 NO + 1NC
Resistenza di contatto iniziale		25m ohm
Materiale dei contatti		Ag
Tensione nominale di isolamento		660V
Resistenza agli urti		30G
Resistenza alle vibrazioni		Max. 55Hz con doppia ampiezza di 1.5 mm
Vita	Meccanica	Teste a movimento rettilineo 3 x 10 ⁷ operazioni - teste a movimento angolare 2,5 x 10 ⁷ operazioni - teste multidirezionali 1 x 10 ⁷ operazioni
	Elettrica	1 x 10 ⁵
Temperatura ambientale		Immagazzinaggio -30° +80° C / Funzionamento -10° +70° C
Umidità ambientale		Max 95 RH
Massima velocità di funzionamento		60cpm
Grado di protezione		IP65

SPECIFICHE (contatto)

Tensione nominale	125VAC	250VAC	400VAC	105VDC
Carico resistivo (cos Ø=1)	6,5	4	2,5	0,5
Carico induttivo (cos Ø=0,3)	6,5	4	2,5	-

LEGENDA

- A = Punto d'azione
- B = Corsa massima
- C = Punto di rilascio)
- D = Corsa differenziale = A-C
- P = Corsa massima di Apertura Positiva

Nota: le misure indicate sono riferite a valori minimi, salvo per la Corsa differenziale.

mm Tolleranza generale: ±0.4

- MBP1H35 rotella Ø 22 in plastica
- MBP1H36 rotella Ø 22 inox
- MBP1H37 cuscinetto acciaio Ø 22

Braccio con rotella

- MBP1H41 rotella in plastica
- MBP1H42 rotella in inox
- MBP1H43 cuscinetto acciaio

Braccio con rotella in gomma Ø 50 mm

MBP1H44

MBP

Braccio regolabile con rotella $\varnothing 22$

mm Tolleranza generale: ± 0.4

MBP1H51 rotella in plastica
 MBP1H52 rotella inox
 MBP1H53 cuscinetto a sfere in acciaio

Braccio regolabile con rotella in gomma $\varnothing 50$ mm

MBP1H54

Asta in plastica con molla in acciaio inox

MBP1H61

Asta a molla in acciaio inox

mm Tolleranza generale: ±0.4

MBP1H62

Asta rigida in acciaio Ø 3 mm

MBP1H71

Asta rigida in plastica Ø 6 mm

MBP1H72

MBP

Filo a molla in acciaio inox multidirezionale

mm Tolleranza generale: ± 0.4

MBP1H91

Asta in plastica con molla multidirezionale

MBP1H92

Asta a molla in acciaio inox multidirezionale

MBP1H93

METODO DI REGOLAZIONE

La testa può essere ruotata di 90° nelle quattro direzioni

L'asta a rotella può essere orientata su 360° di 6° in 6°

Cambiamento di schema per la testa a movimento angolare
