Touch terminal programming software HMWIN

Information you need to know before using the software (mandatory reading)

Important for installation/update

Please start the installation/update file as Administrator.

Installing multiple versions of HMWIN Studio

You may install different instances of HMWIN Studio on the same computer. Each installation has its own settings and can be uninstalled individually.

Three installation scenarios are possible:

Installation scenario	Results
First installation of HMWIN Studio in the system	Software is installed in the specified destination folder
System with only one instance of HMWIN Studio already installed	Current version can be replaced or maintained.
System with multiple instances of HMWIN Studio already installed	Last version installed can be replaced or maintained.

If you try to install a second instance of an already installed version of HMWIN Studio, a warning message is displayed.

Multiple HMWIN Studio installations share a common workspace folder, each sub-folder includes the version number. Each installed version has its ID and can therefore be removed individually.

Each installation is listed separately in the Windows **Start** menu.

Caution

Be aware of the following points listed below.

The copyright for this software is held by Panasonic Electric Works Europe AG. By using this software it is assumed that you agree to "Conditions of Use" presented below.

Conditions of Use

- Panasonic Electric Works Europe AG does not warrant anything regarding the use of this software.
